Elon Bubble Elon Bubble Elon Bubble The Elon Bubble

As the end of summer approaches, Elon once again emits an energetic flow. Students and faculty return to campus to begin their academic year and welcome the new freshmen class to the growing Elon family. Within Elon's close-knit community, lasting memories are made in the classroom, at athletic events, at weekend social events and holiday celebrations. Students are given the opportunity to expand their knowledge of the world in which they live and become involved in various organizations to gain experience outside of the classroom. Each member of the Elon family plays a vital role in our success and becomes a part of our own family away from home. Sporting events allow school spirit for the Phoenix to shine through as teams compete against rival schools. Through each of these aspects, we become the creators of The Elon Bubble.

by Jennifer Heilman

Offering one another a welcoming hug, friends greet each other at the Organization Fair. Students spent the first week of classes reuniting with their friends.

" I enjoy spending my weekends camping with Elon Outdoors. Students like to take weekend trips with their friends to places away from campus too.

-- Patrick Davis

" I really enjoy working with the Homecoming activities. It is an event that brings back past alumni and our school pride shines through.

-- Shelby Peterson

Making the bubble

The essence of every student's college education develops from those experiences outside of the classroom. Within Elon's community, students can envision the anticipation of freshmen at convocation, feel the warmth of an unexpected sunny day in November, see the spirited colors of the Phoenix on Homecoming, taste a Sandy's sub at 4 a.m. on a Saturday, hear the upbeat music streaming through the air from the Greek courts and off-campus parties on the weekend and smell the first winter snow. Each of these senses create the Elon "bubble." Every student will take with them endless memories and stories from their own unique college perspective.

by Jennifer Heilman

while relaxing on the grass during the warm weather. Many took advantage of remember victims of rape. sunny days and spent time outdoors on Elon's beautiful campus.

Planting Seeds Convocation

In the hot morning of August 28th, the 1,240 ew students joined with their families and aculty for "Convocation Under the Oaks" to nark the beginning of their college experince. Freshman Lindsay Howerton reflected n the day: "It was really great to have all ne new students, their parents and fac-Ity together in one place. Having the onvocation put together for us was uch a meaningful way to begin ur lives at Elon." The morning tarted with university Chaplain ichard McBride opening with prayer and welcome address. GA Executive President Chris lorse spoke about great values t Elon and introduced keynote peakers. Hallie Coppedge closed ie ceremony by proudly singing the Ion Alma Mater and Fight Song and resident Leo Lambert left the students ith his famous words, "Long live Elon!" Stu-

ents happily proceeded out of the ceremony

here they received an acorn to represent the

eginning of their education at Elon.

-- Julianna Novak

President Emeritus J. Earl Danieley leads the recessional out of convocation. It has been tradition that the most tenured faculty member carries the mace at convocation.

Cute Critters

Students & Their Pets

When you first come to college, people to you to "make yourself at home." While for most people that might mean to organiz their room the way that they want it and t make new friends, some people go the extra mile. A growing trend on Elon's campus to have a pet of your own. According to Elon's housing rules and regulation the only "legal" pet that a stude can have in their room is a fish in small tank. However, you shou never put it beyond a college str dent to bend the rules. There been three dogs, two bunnies, guinea pig and a fish all in or student's suite this past year. is becoming more common to see students running around will their dogs on the intramural fields by

Danieley or witness a student resci ing a stray kitten from Jordan Center hide in their dorm room. Although each these situations could cause students to be fined, these "cuddly critters" make collegfeel more like home.

Displays of Talent in Theater and Engaging Lessons in Science Lab

This year in the Arts and Sciences Departments, many fun and interesting events took place. In the fall, the Theater Arts Department produced different plays, musicals, and showcases for the students and the Elon community's enjoyment. There was the production of the Neil Simon play Brighton Beach Memoirs, which is the coming of age story of an adolescent boy in the middle of New York in the mid 1900's. In late fall, there was the production of the musical Jekyll and Hyde which is the retelling of a classic story with music and well choreographed dances. These productions showcased the talent of Elon's Theater Arts Department.

Arts and Sciences

In the Science Department this year, students engaged in many interesting labs that required them to learn from first-hand experience. In the Astronomy classes, students would go at night to the roof of the Koury Center where they would use telescopes to observe the stars and put the knowledge that they gain from the classroom into a new perspective. In the Botany class, the students were asked to perform research for a company where they tested germination.

A model of the new business center is currently displayed in Long. The new business center will be built on the current intramural fields by Danieley.

photo by Chrissy Stevens

Long is the current building that hosts business classes. The business program at Elon, the Martha and Spencer Love School of Business, was recently accredited with excellence.

photo by Chrissy Stevens

Professor Tanya Riney meets with students in her office to discuss assignments. The students brainstorm paper topics with the professor for an upcoming paper.

Building a Name for Itself, One New Program at a Time

Abuilding, tucked out of the way, is slowly making its presence known throughout campus. The Martha and Spencer Love School of Business is playing a crucial part in Elon's growing popularity. Student's growing interest in the school has encouraged it to add not only brand new programs, but begin building a new business center. Construction for this \$9.5 million project will begin taking place in the spring of 2005. It will be located behind McMichael Science Building. "I wanted to enhance the image of the school internally with Elon both regionally and nationally," said dean of the school, John J. Burbridge Jr. He's been able to make the enhancements by

School of Business

receiving awards that include the Association of Advance Collegiate Schools of Business International Accreditation, which only top notch business schools receive. However, improvements continue to be made. Majors can participate in Sigma Beta Delta, the national honor society in business administration, or Alpha Kappa Psi, a business fraternity. The school is also looking at creating an internship requirement, wanting students to get involved in real-world experiences.

mpleting work on business projects
tween classes.

Education Majors Venture Outside of Elon

This year in the Education Department, students take a hands- on approach to learning by experiencing what it would be like to teach elementary school children. These Elon students went to North Graham Elementary School, and interacted with children in a way that taught the education majors how they will need to interact with children for future teaching jobs. Also in the Education Department this year, students who are a part of the North Carolina Teaching Fellows Program take part in an interesting winter term travel experience where they travel across the eastern seaboard and learn about history and the U.S. Government. Only 25 students are chosen

Education

yearly for this program and they all must be North Carolina Residents. Also in the Education Department, students from a Foundations of Education class are raising \$2,000 for the their Tajikastan project. This particular class raised money to provide children in Kulob, Tajikistan with a kindergarden program that is not currently available to them. Students at Elon learn not only the importance of education in our country, but in other parts of the world.

by Rikki Jackson

photo by Chrissy Stevens

Jaime Moulton is researching in the Mooney library. The library found on the first floor of Mooney is filled with excellent teaching resources.

photo by Chrissy Stevens is is an available lab that is used to t material. Communication majors n sign up to use Elon equipment to t and produce videos and packages classes.

Learning to Communicate

he Communications Department, with more than 500 students, has played a huge part in the lives of students and added so much more to the campus since it was started. The School of Communications is working on becoming the 17th accredited school in the nation. Students have become intrigued by the different programs that the School has to offer. "It is just so fabulous and exciting. As a freshman, I was very, very certain that I wanted to get involved and be part of the communications center. I am a broadcast major so it was just truly great to be able to have this really awesome chance of working in the communications building and being on the Phoenix14 staff," said Kristin Klauder.

Communications

"It was so much work, but challenged the way I think and made me even more determined to make it in the broadcast industry." The program challenges its majors and forces them to broaden and expand their horizons in and out of the bubble.

by Joelle Dent

Multicultural Events at Elon Provoke Thought in Students

his year Elon students had many opportunities to be involved in and attend multicultural events. From the Black Cultural Society's (BCS) annual fashion show to the Gospel Choir's fall and spring concerts, many interesting and exciting multicultural events have taken place on campus. In February, Linda Tilley and the Cultural Heritage Choir performed in McCrary Theater. The Grammy nominated choir sang songs that appropriately celebrated Black History Month with soul and slave songs in an effort to preserve the roots of African-American music. In January, students celebrated the birthday of Dr. Martin Luther King Jr. in Whitley auditorium with a

Multicultural Events

speech by William Haley, the son of the author of <u>Roots</u>, Alex Haley. He discussed the influences of Dr. King's efforts on present day society. These are just a few examples of the events students have attended and participated in at Elon this year.

Elon students prepare the soul food dinner in the kitchen. The dinner included homestyle chicken and other delicious main courses.

Multicultural Center is decorated for holiday season with a tree and Christs lights. Students participated in holiday corating with other organizations.

photo courtesy of Multicultural Center Students and faculty socialize and enjoy the food prepared by students. The community was able to have a taste of soul food.

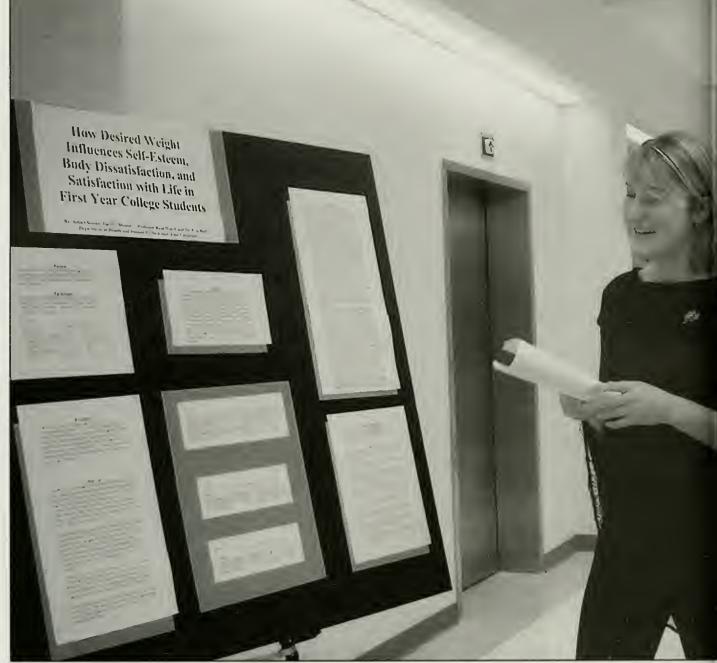

photo by Jocelyn Maningo

A student and faculty member discuss a poster presentation on how desired weight influences a college student's perspective of themselves. Poster presentations allowed students in majors outside of the "normal" SURF research to present their work.

photo by Jocelyn Maningo

Students and faculty observe their peers SURF projects. SURF created discussion among many individuals about their research.

photo by Jocelyn Maning

SURF presenters teach their peers about what they have been studying for the past year. Many presentations focused on a personal interest.

Students Present Their Reseach Findings on SURF DAY

Around noon, there was a exhibit of art work in the Alumni Gym. At that same time there were readings of poetry and non-fiction pieces. In McEwen, students screened their film productions. Later in the day, students attended an "awards and student achievement" celebration ceremony. The day was ended with two student performance galas,

SURF

a vocal performance in Yeager Auditorium and an instrumental performance in Whitley Auditorium. The presentations allowed students to share their months of hard work with their peers and faculty.

by Rikki Jackson

photo by Jocelyn Maningo student presents her research to peers after onths ofwork and studying. Students presentg during SURF have the opportunity to have eir work published in scholarly journals.

Periclean Scholars Make a Difference in the Community

Ion University is one of ten schools that started up Project Pericles: a challenge to make students active in their community as well as the world. Periclean Scholars go through a thorough application process and must have completed the Global Experiences course. These students will take special courses their sophomore, junior and senior years that focus on a class project. They will gain skills that will empower them to raise these issues in the community and promote change. Elon takes civic engagement and social responsibility seriously. One of Elon's missions is "to be global citizens and informed leaders motivated by concern for the

roject Pericles

common good." First year objectives for Project Pericles are: to foster a conversation in the community about different ways that Elon can work with other organizations, to try to integrate Periclean values into all parts of the university. Many of these scholars will travel to study AIDS in Africa or to study hunger in India. Project Pericles will grow at Elon as well as around the nation.

by Lisa Parker

photo by Periclean Scholars

Sam White, Vaino Mutota, Zach Arcaro, Rachel Copeland, and Brian Baker stand in front of the Namibian Flag. Periclean Scholars also raise money at Elon to help AIDS orphans in Namibia.

Orphans gather outside of an AIDS orphan center in Namibia. Students who work with Project Pericles also survey other global issues such as hunger in India.

Teddy Coin attends a meeting with Senator Jim Talent. Internships like this one in Washington D.C. give Elon students the opportunity to be involved in the greater community.

photo by Pamela Brumbaugh Lindsey Pinkstaff is at work at Oxmoor House Publishing where magazines such as Southem Living and Coastal Living are created.

photo by Pamela Brumbaugh Jessica Morse is hard at work at he summer internship at the well known news source USA Today.

photo by Pamela Brumbaugh ndsey Pinkstaff learns from her supersor Courtney Gunnells at her internip with Oxmoor House Publishing.

Learning Through Experience

This year, many Elon students had the opportunity to work on internships through the Career Center and they have learned many valuable lessons through their experiences. This past summer, students had the opportunity to work with congressmen in Washington D.C. One student, Teddy Coin, worked with Senator Jim Talent in D.C. Another student, Lindsey Pinkstaff, worked on an internship with a well known magazine publishing company that produces magazines such as *Southern Living* and *Coastal Living*. Senior Brian Kellaway worked this past summer on an internship in Washington D.C. in the White House with the Office of the Federal

Internships

Environmental Executive. Senior Ellie Lightburn worked at *USA Today* with Reggie Murphy in McLean, VA. These summer internship experiences and all of the other internships that Elon offers, allow students to learn more about their personal field of interest.

By Rikki Jackson

Students Experience New Cultures Through Study Abroad

opportunity to study abroad. According to the Open Doors Report, "Elon sends more undergraduate students to study abroad than any other master's-level school in the nation." There are four different times for students to study abroad: fall semester, spring semester, summer and winter term. This year more than 700 students studied abroad during winter term and roughly 200 spent the semester abroad. Sixty-three percent of last year's graduating class spent at least one term abroad and this number is expected to go up over the next few years. There are over fifteen countries in

Study Abroad

the semester abroad program and over twenty to choose from in the winter. Freshman Mallory Dutton spent winter term 2005 in Costa Rica and said, "I couldn't have had a better time. I improved my Spanish, lived with a Costa Rican family and made a lot of new friends." Elon stresses the importance of cultural experiences with the Experiential Learning Requirement and study abroad is the perfect way to fulfill these credits.

by Lisa Parker

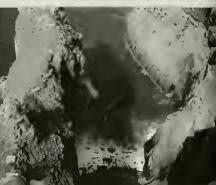

photo by Stacy Vog

In Ireland, students view the beautifu coast. The focus of this study abroad trip is Irish literature, culture and history.

John Glenn explained what it was like trying to put eyedrops in his eye without the help of gravity, and the effects of a 78 year-old in space. He also voiced his support of research in space.

photo by Jocelyn Maningo

Students and faculty gathered to celebrate the start of a new year at the Fall Convocation. Anna Quindlen's message to students was clear and encouraging.

photo by Jocelyn Maninigo

Officials of the school stand to introduce the 2005 spring convocation speaker John Glenn. The Spring Convocation honors graduates, President's List and Dean's List students.

EON

photo by Jocelyn Maningo ill Convocation speaker Anna Quindlen scusses the importance of reading in day's society. She also spoke about w certain books are making reading ore fun for younger generations.

Anna Quindlen and Senator John Glenn Speak for Convocations

her lecture entitled "How Reading Changed My Life" at Elon University's Fall Convocation in which she shared her thoughts on reading and writing today in a world where hype and marketing can only go so far. Quindlen said the recent success of the Harry Potter book series for children is not based on marketing. Books that focus on interesting characters are creating a new generation who is interested in reading even if their parents are not."This is a very good time for readers and for reading," she said. "Reading is a pathway to the world."

Convocations

NASA Astronaut and U.S. Senator John Glenn had a similar educational message for students during his speech at Spring Convocation. Glenn noted that education and research are the two things that have set America apart from the rest of the world America apart from the rest of the world throughout its history. Glenn also said he was also concerned about proposals in NASA to cut back on research in space. "Many things we learned in space can be beneficial here on Earth," said Glenn. Convocation honored the faculty, graduate students, the Class of 2005 and members of the Elon Society.

by Jennifer Heilman

Guest Speakers Provoke Thought in Elon Students

drugs, illegal immigrants and pornography environmental policy and "inside a dolphin's mind," quest speakers have shared their knowledge and opinions to students through a showcase of lectures presented on campus. Chris Wallace, Christine Todd Whitman, Eric Schlosser, Barbara Ehrenreich and Sister Helen Prejean are a few who brought controversial issues to the spotlight.

Eric Schlosser, author of Fast Food Nation and Reefer Madness: Sex, Drugs and Cheap Labor in the American Market, spoke November 16. Focusing on American culture and current

Guest Speakers

values, Schlosser's lecture discussed primarily the war on drugs and migrant workers. Schlosser said he hopes his work has an impact on people and raises awareness about the injustices which exist in society.

Having ministered to death row inmates and written two books on the death penalty, Sister Helen Prejean, a Roman Catholic nun, discussed her opposition on March 14. Prejean said her years of work with the families of murder victims has convinced her that the death penalty does not bring closure and believes that dignity does not exist in the state of taking someone's life. During an interview with The Pendulum, Co-chair of the Liberal Arts Forum Sarah Pattison said, "We try to pick speakers that will be of some type of interest to a diverse group of students, faculty and staff."

photo courtesy of Jerome Strum icasso at the Lapin Agile is a Steve artin comedy about Einstein and icasso. Auditions are held for students eeks in advance.

Performing at Their Best

This year the Drama Department has put on many funny and talent-filled performances. In the beginning of the year, the classic Neil Simon play *Brighton Beach Memoirs* was performed by Elon students in the Black Box Theater. This is the coming of age story of a boy living in Brooklyn, New York. Later in the fall, students in the Drama Department performed in *Acting Up!* which was a performance of scenes and monologues that were presented in the form of revues. In the fall, a production of the Shakespeare comedy *Two Gentlemen of Verona* was performed and was very welcomed by sold out audiences.

Drama

In February, female students performed the popular *Vagina Monologues*. Steve Martin's witty comedy *Picasso at the Lapin Agile* was performed in April by students. It is the story of what might have happened if Einstein and Picasso met in Paris as young men. Students finished off the year by writing and producing their own *One Acts* which premiered in the Black Box Theater.

by Rikki Jackson

Students and Staff Perform in Showcases of Talent

lon students and faculty have showcased their music and dance skills in many forms. Throughout the year, there have been recitals where students have had the chance to hear and see their faculty members perform. On February 3rd, Charles Hogan performed in a recital that included Romantic and Neo-Romantic piano music. On March 14th, the Elon community had another chance to attend a faculty recital which featured Victoria Fischer Faw on piano and Fabrice Dharamraj playing the violin. This year in the theater department, students got the opportunity to perform for a casting director. In mid March, Elon's Wind Ensemble performed at

Music & Dance

a concert with the music of award winning composer John William and featured songs such as "The Emperor Strikes Back and the theme song from *Indiana Jones*. Theater majors performed song and dance numbers in "It's A Grand Night for Singing XIII" on April 1st and 2nd. The performances ranged from pieces from recent song and dance numbers to numbers from the 1930s. These are just a few of the many performances presented by Elon students this school year.

by Rikki Jackson

Inside the bubble

With over 140 organizations and clubs on campus, students have plenty of activities to choose from. Organizations fall into eight categories, which include academic, government, Greek, honors, media, performance, programming, religious, service and sports. The clubs and groups in these categories have many different activities to benefit the campus and the community. Activities included building a Habitat house, bible studies, musical guests, guest speakers, student performances, awareness for a variety of causes, preparation for future careers, as well as a multitude of other fun and learning experiences. Each organization made campus a busy and more exciting place to be.

by Mary Cunningham

photo by Jocelyn Maningo

Free food, high energy and tons of campus

Information Galore

groups meant it was time for the Organization Fair.

On a hot, sunny afternoon on the third of September, a majority of the campus gathered on Young Commons for one annual event, the Organization Fair. The fair is held at the beginning of each school year to inform new students, freshmen or transfers of all the organizations and programs Elon has to offer. It also gives clubs the chance to recruit new members.

"During freshman orientation, you see only a few of the organizations the campus has to offer. All you keep hearing about is 'join an organization, get involved!' When you go to the Organization Fair, you find things on campus that interest you. It gives a more diverse look at the phrase, 'Become Active,'" said freshman Brian Blocker.

Even local churches, of all denominations, came out to hand out baked goods and ice

cold sodas for the new, eager college students to devour. The churches in the area knew that there would be lots of students looking for a place to worship. The Organization Fair made it easier for students to find that place.

Though freshmen could not join a Greek organization until later in the year, the fair gave them the chance to see all the different Greek organizations that they could possibly become part of.

Sports club teams that played other schools were looking for players who were looking for a competitive game.

The fair was a great opportunity for new students to become aware of organizations on campus and encouraged new students to get involved in the Elon community.

Members of Pi Kappa Phi, part of the Interfraternity Council.

Friendly competition among all the Greek organizations on

Greeks and More campus was encouraged throughout Greek Week.

Every year, sororities and fraternities look forward to one week in the spring where Greeks compete against one another in hopes to become the champion of Greek Week. Competitions spanned the week of April 18-22 when Greek organizations put their game face on and put their best foot forward.

The most anticipated part of the week, the Greek Week Dance competition, was held on Monday the 18th. The gym was filled with groups in different themed T-shirts supporting their organization's dance team. The winner was Sigma Sigma Sigma, followed by Phi Mu and Sigma Kappa. A guest speaker on Tuesday night gave a lecture entitled "How to Confront the Idiot in Your Chapter." Greeks learned the importance of confronting issues in their chapters and they found out the best way to do so.

The organizations answered trivia questions in

the Quiz Bowl on Wednesday. The sisters of Alpha Xi Delta won the Quiz Bowl. The second annual Make-A-Wish Concert was held in the Alumni Gym on Thursday. Greeks came out to support different performers: Twisted Measure, Sweet Signatures, the Gospel Choir, the Skip-Sations, Chris Hendrix and other talented musicians. The week ended with the Greek Olympics on Friday afternoon where the organizations came out in their athletic gear to compete in events like dizzy-bat, the water balloon toss, relay races and four square.

Points were awarded based on winning and number of people in attendance. Sigma Sigma Sigma was the overall winner for the women's division and Pi Kappa Phi placed first for the men's division. All proceeds from the week went to Make-A-Wish Foundation.

by Lisa Parker

photo by Jocelyn Maningo Combining all the NPHC fraternities, a member of Alpha Pi Alpha works hard to get his moves right. The NPHC's efforts worked and helped them gain first place in the fraternity competition.

photo by Jocelyn Maningo

With a candy shop theme, Alpha Omicron Pi dancers wave their lollipop's to the music. Sticking with their theme, Alpha Omicron Pi danced to songs like "Lollipop, Lollipop" and 50 Cent's "Candyshop."

Strutting their stuff, members of Pi Kappa Phi do their dance in hopes to place. Every organization got points for dancing, but first, second, and third were worth the most points.

With coordinating outfits, brothers of Sigma Chi do their best to impress the judges. The judges consisted of numerous, unaffliated faculty and staff members, so there would be no bias.

Starting off Greek Week, Sigma Sigma Sigma preforms at the dance. Sigma Sigma Sigma had a lot of talented dancers and good choreography which led to their first place victory in the sorority competition.

photo by Jocelyn Maningo

photo by Jocelyn Maningo

On Wednesday, April 20th, Delta Delta Delta and Sigma Kappa battle each other in the Quiz Bowl with questions about Greek Life, Disney and Elon. Though Delta Delta Delta started strong, Alpha Xi Delta ended up winning the bowl.

ELONTHON has students dancing for twenty-four

Dance All I

hours in order to raise money for Duke Children's Hospital.

Staying up all night is not uncommon to college students. However, standing up all night is a different story. Over 200 students participated in ELONTHON held on March 5 and 6 to help raise nearly \$40,000 for Duke Children's Hospital. Many people spent the better part of the year planning this event, from choreographing a morale dance to fundraising, to making sure that the dancers were well fed throughout the 24 hours.

There were many planned events to keep the dancers occupied. The dancers got to see Twisted Measure, Sweet Signatures and Elon's Finest. To keep enthusiasm high throughout the 24 hours, a dance was created. The dance was created by a committee which had been working since the beginning of the year. At the beginning of each hour a new part of a popular song and choreography to go along with it was taught to the dancers. The songs were easily recognizable, such as Barbie Girl by Aqua, and the dance moves were fun and crazy.

Campus Recreation sponsored three of the 24 hours which enabled dancers to take a break from dancing or standing to swim.

A few "miracle children" visited the dancers to share their stories. There were kids of all different ages with different backgrounds, but they managed to keep the dancers going and really give this dance marathon a deeper meaning. Sophomore Laura Furr said, "It meant a lot to actually see the kids that we were doing this for. If these children could overcome these diseases, we could definately make it through the night."

by Lisa Parker

Some kids from Duke Children's Hospital came out to the event, Brittany Brackett, and Ellie Bartholomay got to entertain Joshua, and another child. **ELONTHON** was a fundraiser for the children's hospital.

Keeping spirits high, as another hour passed, dancers learn new steps to the morale dance. By the end of the night there was one fun, long dance since new steps were added every hour.

Though not required to dance for the entire 24 hours, Dave Warfel and a friend have some fun dancing. Dancers were required to stand for 24 hours; for a five minute break they had to pay one dollar.

For Locks-of-Love, Stevie Kloeber gets ten inches of her hair cut off. Locks-of-Love is a charity which makes wigs for cancer patients out of real hair donated by generous people.

Starting out strong, participants do the dance to the Saved By The Bell theme song as part of the morale dance. Saved By The Bell 24 hours a variety of morale was one of the first songs, events helped keep dancers so the dancers knew it well.

Some of the toliet paper princesses outfits designed by teams, await the judges thoughts. Throughout the awake and motivated.

Working to help others, Habitat for Humanity

Helping Hands

helped build a house for a family in Alamance County

1. The Periclean Scholars and International Relations Club were two of the many participants in Habitat's fundraiser, Shack-a-Thon. 2. Looking at her list, a Habitat member checks in all the organizations involved in Shack-a-Thon. 3. Putting the finishing touches on their shack, members of the leadership program admire their work. 4. Winning second place, Ethan Barber preforms "Lily Girl" much to the delight of the crowd. The Showcase Showdown is an annual talent show hosted by Habitat.

Holiday spirit leads students to come together. These two students worked together to decorate a door in the Mosely Center for holiday cheer.

It is the place where I will meet the friends I will have forever and make the memories I will remember forever. **33**

-- Chris Miller

66 Elon is a community. Elon is composed of different people all united to accomplish their own path of education. -- Clifton Johnson

Naming the bubble

The students at Elon had a lot to smile about. Every day on their way to class, students had somebody to say hello to. Faculty and students mingled on the brick sidewalks of Elon. The diverse faces of the bubble often met at the fountain, in Moseley Center and of course in the classroom. The small class sizes allowed students get to know each other, so when they would see a classmate on campus, they could say hello. There is a special bond that Elon students share. Although they are all different, they all have a love for Elon--the community, campus and even classes. All of the students who are here, choose to be here. Their smiling faces are the ultimate proof of their commitment to Elon.

By Laura Furr

Nothing but smiles! Two Amy Cohen and Stevie students could not help but Klober spend a special smile as they received free evening out. They spent homemade cookies during their Valentine's Day dinner Elon's annual cookie walk.

C e Oh, How The Years Go By Changes Seniors have Witnessed

Rig changes came to Elon in the year of 2001. The class of 2005 came into Elon as freshmen as new as the Elon University signs. On June 2001, Elon officially became a university. Elon was soon forced to place new signs. The campus shop experienced change with brand new rehandise showing new logos. Along with a new name came a stadium for the football team. Rhodes Stadium was opened to a crowd football games in the fall of 2001. The football team took center stage that fall as well as the marching band. The Fire of the Carolinas ne smashing back to campus after a twenty-year absence. More changes came into 2001 with campus dining. Cantina Roble opened doors to students and faculty as a new dining choice. Down the street from Cantina Roble, The College Coffee shop replaced their signs. See College Coffee shop changed its name to The Acorn Coffee shop. Despite the name change, the food and service remained the same to dents. Many other changes were made to the university in 2002, from campus activities to academic classes. Overall, students agreed that changes were made for the better.

From 2002 to 2003

Many changes came to Elon in the school year of 2002. To begin, students were offered a new living choice and classroom availability in the Academic Village. The Honors Pavilion and the Isabella Cannon International Studies Pavilion were constructed and opened their doors in the fall of 2002. The Honors Pavilion housed Honors Fellows and provided new classrooms. The Isabella Cannon International Studies Pavilion was opened to International Studies

jors as well as international students as a housing option. Besides Academic Village, Carlton, Alamance and Duke all received ke over's. Renovation plans included new floors, desks, computers more. The North residence hall was removed. The loss of the was no problem for Elon. North only housed 33 students and the ditional Academic Pavilion made up for the housing loss. Dining ctions grew with the addition of Freshens, the ice-cream and

smoothie area of Octagon in Moseley. Harden experienced changes with their new program Real Food On Campus. The purpose of the new program was to include more healthy choices for students. One of the only negative changes that was brought to campus was the price increase in laundry from 75 cents to \$1.00. Despite the laundry change, students and faculty were overall pleased with the changes in Elon.

Changes in 2004

The year of 2004 marked a hig step for the Elon athletic programs. Once a member in the Big South, Elon now found itself the newest member of the Southern Conference. The conference change influenced other schools Elon would compete against. With the change in conference came a sweep of school spirit. For the men's basketball team, students flocked to the Nest with black T-shirts all in school spirit. In other changes, the Office of Religious and Spiritual Life received a \$1,000,000 donation. With the additional money, Religious Life was able to add services to students and expand their office. Other changes came in more organizations, academic classes and majors.

Moving into 2005

In kept expanding in the year of 2004. In the fall, The Vera chardson Truitt Center for Religious and Spiritual Life opened. e house was donated to Elon University by Edna Truitt Nolles and her husband. The house became the office for the religious advisers as well as a meeting place for many religious life groups. e school continued to grow with the announcement of the School Caw by the Elon University Board of Trustees on October 29,

Elon School of Law to be in Greensboro. A few months later, the intramural fields were cleared in preparations for the building of the Koury Senior Business Center, and the new intramural fields are becoming green on South Campus. The center will house the Martha A. Love School of Business. The building is schedule to open in the fall of 2007 with over 20 classrooms. Despite all the changes made during the time the class of 2005 was at Elon, many of the original traditions remain. The class of 2005 experienced convocation, SURF day, many intellectual speakers, Leo Lambert's holiday celebration, and last but not least, graduation.

Class of 2005!

The Alma Mater

Sons of Elon, daughters too,
Bring their praise and homage true.
In thy keeping there will he
Words and deeds to honor thee.
Hearken to the song they're singing,
And the loyalty they're hringing.
Alma Mater, they will cherish thee;
Alma Mater, they will cherish thee.

Proud, the oak trees on thy hill
Offer shade and shadow still
Green the fields around thee lie;
Blue the Carolina sky.
Stately rise thy halls of learning,
Toward their portals we are turning.
Alma Mater, we will cherish thee;
Alma Mater, we will cherish thee.

Elon, ever lead us on
To a bright and happy dawn;
Teach us still to love and pray,
Guide us to a nobler day.
Joyous music lies before us,
Memories to swell the chorus.
Alma Mater, we will cherish thee;
Alma Mater, we will cherish thee.

Tune: Gaudeamus Igitur Lyrics: William David Ellis

Elon Fight Song

So here's to dear old Elon Faithful and hold. Here's to her hanner Of maroon and gold. And here's to men and women, Who've come and gone, Singing the victor's song of old Elon

What Others Think of Elon?

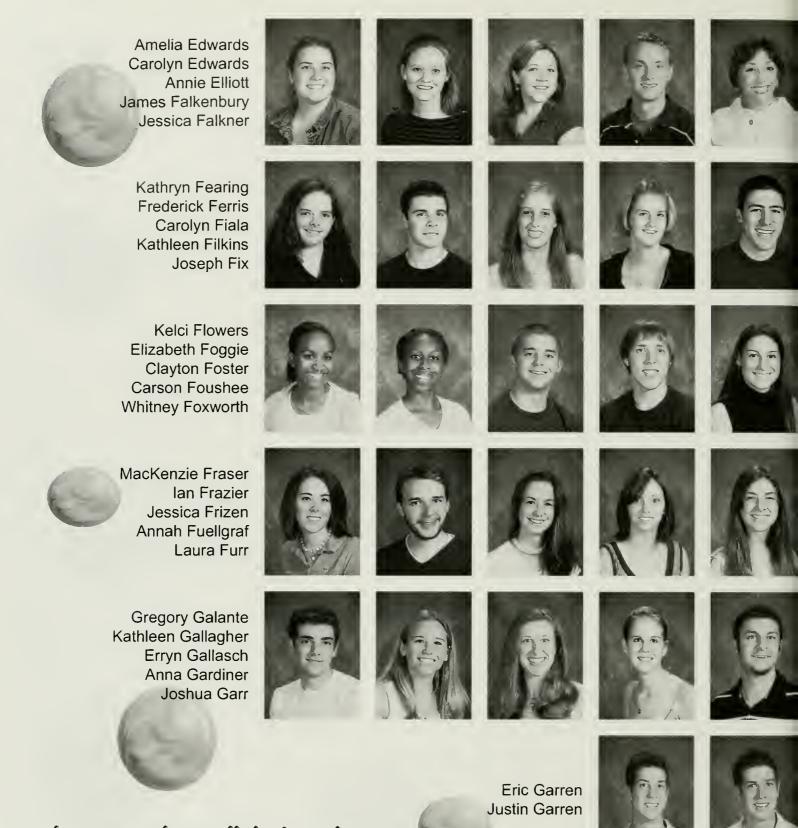

U.S. News and World Report granted Elon with the title of being #6 among 131 master's level Southern Universities in their 2005 America's Best Colleges guide. This was the first time Elon had ever ranked so highly on the charts. In the 2004 addition, Elon appeared as an impressive ninth. U.S. News also included to rank Elon among their best in academic and student life programs, study abroad course, service learning opportunities, first year experiences, and learning communities.

The Princeton Review spotlighted Elon University in the 2004 in The Best 351 Colleges guide. In the guide, Elon received a third place ranking on the academic list whose "professors make themselves accessible to students." Elon also ranked second in the "beautiful campus" category. Elon was also featured in Jay Mathews, Harvard Schmarvard: Getting Beyond the Ivy League to the College That Is Best for You. In Matthews guide, he ranked Elon as first in the list of 100 outstanding but underappreciated colleges in March of 2003.

Elon 101: What's all the fuss about?

Many students tend not to share the same classes as those of other students and friends, but this is not the case for Elon 101. Elon 101 was a required course recommended to freshmen in their first semester at Elon. The class could be described as an introduction to college life and the academic community. Each class is taught by an academic adviser. With the academic adviser teaching the class, students were able to achieve a more personal relationship with their advisers. The adviser focuses on a different aspect of Elon each week. Topics include the Elon Honor Code, study abroad, Alchohol 101, Greek Life, community service, careers and so fourth. Time was also spent outside the classroom. Many Elon 101 classes met for dinners

at local restaurants, formed intramural teams and enjoyed nights out on the town of Burlington together. The class was conducted letting students express their concerns or questions about Elon. Elon 101 met once a week and many students enjoyed the class. The purpose was to ease students into the college learning experience. When scheduling approached, Elon 101 focused on how to schedule and what was neccesary to take. One-on-one with advisers helped students achieve the best pathway possible in their quest of a major. As first semester came to an end, students left their Elon 101 classes with confidence and braced Elon head on.

Breaking

An athlete is a person possessing the natural or acquired traits, such as strength, agility and endurance that are necessary for physical exercise or competitive sports. Athletes at Elon choose to play sports with one goal in mind: to win. Through intense practice and determination, students achieve victory and conquer their dreams. Whether it is traveling to other schools to compete, smashing a home run at a baseball game, or throwing a 30 yard pass at a football game to score the winning touchdown, athletes endure the impossible. By competing in sports, Elon athletes break out of the bubble and enhance their college experience.

SACKS AND TACKLES

by Allee Lichtenstein

On September 18, the Phoenix beat Delaware State in the Family Weekend football game. With 49 points, the Phoenix made the most points in a single game in their past 16 games. With a commanding 36-point margin of victory, the Phoenix had an exciting win. Freshman quarterback Kye Hamilton completed 12 ariel attempts and threw his first two college touchdown passes. This game marked the end of a nine-game loosing streak which extends back to last season.

On November 24, the Southern Conference Sports Media Association named its 2004 All-Southern Conference football team. Included in this team were five Elon football players: senior center Brandon Mason, sophomore linebacker Chad Nkang, sophomore running back John Taylor, junior defensive back Dwayne ljames and senior linebacker Calvin Sutton. Overall, the Elon football team won three games in their season. The wins were over Delaware State, Chattanooga and The Citadel. The season ended in a positive light with hope for a better season next year.

Kye Hamilton throws a pass to try to avoid a sack. The final score of the game was Elon: 7 and Western Carolina: 28.

Jamie Ownbey challenges a Furman player. Elon tried to hold off the #7 ranked Furman, but lost 0 to 10.

BURNING TURF

by Allee Lichtenstein

On October 17, the Phoenix had an exciting 1-0 Southern Conference win over East Tennessee State. The win ended an 11-game loosing streak. The first half ended scoreless and even. However, during the second half, Monica Houseworth scored on a cross from Tina Longo and won the game for the Phoenix.

On October 24, the Phoenix beat Chattanooga 1-0. During the first half, Gillian Murray made a goal which was taken back after the referee said

Emily Chesney prepares to head the ball against a UNC-G opponent. The final score of the game was UNCG: 2 and Elon: 1.

she handled the ball wrong when the goalie was down. Gillian Murray made the winning goal in the second half when Jaclyn Immordino sent her a pass near the front of the goal. This game marked a third straight win for the Phoenix.

After a tough season, the Elon Women's Soccer Team finished seventh place in their 12-team league. This placement has earned them a spot in the Southern Conference Tournament. This will be the women's soccer team's first time competing in the tournament. The tournament will be taking place in Greensboro, NC.

Jaclyn Immordino defends the ball against a UNC-G opponent. Immordino was a key player in this game.

SIZZLIN' KICKS

by Allee Lichtenstein

On September 15, 2004 the Elon Men's Soccer Team won their first game of the season against East Carolina. In a 2-1 game, Elon freshmen Douglas Boateng and Brett Paschall both scored. After 15 minutes, Boateng scored the first goal of the game from a break-away. Terry Amos of East Carolina scored a goal after 18 minutes of playing time to tie the game. After 39 more minutes, Paschall scored off a penalty kick-the game winning goal.

On November 9, Boateng and Junior Nombre were honored by making the Southern Conference All-Star team. The men's team ended in November during the first round of the

Southern Conference Men's Soccer Championship. Elon was beaten by the College of Charleston in a 1-0 win. At 27 minutes, College of Charleston's Hollingsworth scored after taking a pass from midfield.

Head Coach, Mike Reilly, is proud of each of his players. They made some huge accomplishments this season.

The team's ending season resulted in 4 wins and 11 losses. Overall the Men's soccer team had a good season.

Brett Paschall runs down the field to pass the ball. He successfully avoided the Furman opponent.

Fabyan Sax tries to head the ball past a Furman player. As a junior defender on the team, Sax was a key player this year.

BURNING RUBBER

by Lauren Sims

For the women's track and field team, this year was quite a successful one. The team traveled to different areas of North Carolina, competing in different relays and meets. They had an excellent season and many personal records were set. A lot of individuals broke school records as well.

In April, the team hosted the Elon Invitational, which a lot of fans were able to attend to support and cheer on the runners. This was the only regular season home

Amy Sulser leads a pack of runners during the mile. Amy was a valuable runner through the season.

competition and the only opportunity to show their fans how hard they had worked this season. The Elon Phoenix won eight out of nineteen titles during this meet.

Alice Turner set a record in the 400m hurdles, Angela Carlberg finished first in the shot put and the discus throw; Jessica Clendenning won the pole vault; Lindsay Gonzalez won the long jump; and Brittany Boda won the 100m hurdles. Overall, the Elon Invitational was a great success for all the athletes.

With another year complete and many accomplishments, the team finished with success and are proud of all they have done.

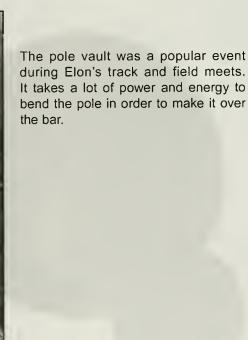

photo by Alex Corey

EAGLES AND BIRDIES

by Tim Rink

"It was an up and down type of year for us," says Coach Bill Morningstar, now in his 31st year as men's golf coach, of the 2004-2005 season.

Despite an eighth place finish in the Southern Conference tournament, the men's golf team had successes at times.

The team won the GEICO Direct Invitational in March. They tied for second in two events, and took third in two others. Most impressively, the team finished in the top half of all but two of the tournament fields they were in.

Led by freshman Jimmy Lytle's 74.52 stroke per round average, the Phoenix beat 117 of the 166 teams that they competed with this season.

Lytle and junior Bennett Smith led the team in rounds played this year, each teeing off 31 times during the season. Seniors Keith Orlen and James Hockman were also strong this season with 75.14 and 75.35 stroke averages, respectively. Orlen and Lytle tied for first twice during the season, and Lytle finished second out of 64 golfers at Seascape Golf Course in Kitty Hawk in late October.

Lytle was also named as October's Southern Conference Athlete of the month.

Kristin Tremoulis gets ready to putt. Putting was a skill the entire golf team practiced frequently throughout the season.

SPIKE TO SCORE

by Nancy Whitman

The Phoenix Volleyball team started off a little slow, but surged pass challenges and ended their season strong with a six game winning streak. They also posted the most wins since moving to the Southern Conference.

Returning seniors included outside hitter Sarah Farley, defensive specialist MK Spear, outside hitter Emily Hayes and Katie Newby. Fresh newcomer, Emily Lucci proved very valuable being named October's Verizon Wireless' Athlete of the month.

Emily Hayes gets ready to spike the ball. Melissa Melito and MK Spear prepare to back her up. At the start of the season, the Phoenix had an exciting game against UNC Ashville, winning it in five games. They also took matches to five games against Furman, Western Carolina, Eastern Tennessee, Chattanooga and High Point. The team swept UNC Greensboro in three games each time they played them.

The team proved to be a strong one, as they finished second in the division and played hard at the Southern Conference tournament in November. They posted many records and wins to finish off a successful season.

Two Elon players prepare to return the ball against North Carolina A&T. Elon won the game 3 to 1.

SWIFT FEET

by Meredith Taylor

The air is cold and everyone can see their breath. The runners do a few strides to get their heart rates up. Not only are they worried about what they ate for breakfast or if their shoes are tied tightly enough, but also what their time and place will be for the race. Cross country requires intense concentration and focus throughout every race.

Elon's men's and women's cross country teams had very successful seasons this year. Head coach of both teams, Jackie Sgambati, is proud of all her athletes. With four seniors this year, good leadership, and great incoming freshmen, cross country had

something to be proud of. The men finished eighth in the Southern Conference Championships. This was a great improvement from their pre-season rank of tenth. The women also advanced to a finish of seventh from an original rank of tenth as well.

Cross country may seem like an individual's race, but everyone's place counts. In the end, Elon is proud to finish as a team. The Phoenix runners should be proud of how they finished off the season and they look forward to next year.

John Tumbleston leads the men's cross country team. Staying together throughout the races was one of Elon's most important strategies.

CHEER TO HEAR

by Lauren Sims

The cheerleaders started off their season at Myrtle Beach just like the dance team. For a few weeks, they participated in a camp session which would have been longer if it weren't for the hurricane.

The cheerleading team grew this year as they added six new members, although they lost two veterans due to personal reasons. They began their season in August and have pulled off some extremely difficult and complex collegiate level stunts this year that they have not been able to do in past years.

Their coach Sandra Bays decided to stay with the cheerleading team after a hard decision about whether to continue her career. The team looks forward to working with the talented coach and what the future may bring.

This year they received positive responses from the administration, as well as tremendous support from the Elon community. The cheerleading team is in season from August until mid-March, as they train 4-6 days a week for seven months. Although it is intense mentally and physically, they love being able to bring school spirit and enthusiasm to Elon athletics.

The co-ed cheerleaders form a pyramid during their half-time show. The cheerleaders cheered the Phoenix on to beat Appalachian State 58 to 55 in the last ten seconds of the game.

DANCE THE NIGHT AWAY

by Lauren Sims

Elon's dance teams had a successful year cheering on the Phoenix. The Varsity Dance Team had two very strong teams: one that was designated to dance at the women's basketball games and another at the men's basketball games. This was the first year that the dance teams collaborated into one team during the football season in order to do the half-time show as one large group. In her last year at Elon, Head Coach Sandra Bays was able to guide the team through a positive season.

The dance teams also began their season in Myrtle Beach participating in a camp session for a few weeks like the cheerleaders.

Their season ended at the men's basketball Southern Conference Tournament.

It was a rebuilding year for the JV Dance Team, but the newcomers brought strong new talent which allowed them to come together through all their diverse backgrounds and form a strong multidimensional team. Next year shall be just as successful for all the teams, as the new members become veterans and continue to bring life and energy to Elon students as they come together to support Elon athletics.

The four seniors stop to take a quick photo during senior night. Courtney and Krissy Miller were all an asset to the

NOTHIN' BUT NET

by Mike Demos

The Elon Phoenix Women's Basketball 2004-2005 concluded their season with a tough 69-39 loss to the seventh seeded College of Charleston Cougars. While the 30-point loss in many ways summed up a very difficult season, the illusion that it may have created too many is not entirely true.

The fact is Coach Brenda Paul's squad was likely the youngest in America; whether you look at Division 1,2,3 NAIA or any other existing level of college basketball. This season the Phoenix trotted out nine freshmen on the court and they did take their lumps and growing pains along the way.

However in looking back at the team season, there were many positives for this young team. High points included taking six-time defending conference championships UT-Chattanooga down to the final seconds of the game, and thrilling league wins over tough rival UNC-G and eventual Southern Conference Tournament Champion Western Carolina. These performances will no doubt serve as important building blocks to the future.

> All in all, it should be an interesting off season and one in which the team looks to continue to improve.

> Kitara McMoore shoots past an East Tennessee State opponent. The final score was Elon 58, East Tennessee 80.

Nicole Allison dribbles the ball down the court against Wofford. The Phoenix played a great game winning 66 to 43.

SCREEN

by Colin Donohue

There was no trickery, no misdirection, just one of the more fundamental plays in the game of basketball: the screen. "That's something we when the (play) clock is down to 10 (seconds)," said Elon sophomore Chris Chalko. "It's just a pick, and I pop out and try to get some space. That's something we run all the time, probably more than anything else we run."

In fact, Appalachian State knew the exact play the Elon Men's Basketball Team would

Colin Wyatt shoots and scores! Elon played a great game against Western Carolina but ended up losing 49 to 54.

run. But the play Elon has run dozens of times before still managed to hold up. It didn't matter that the fans in attendance knew what was coming. It didn't even matter that the Mountaineers knew what was going to transpire.

Chalko, with four jammed fingers and less than eight seconds left in the game, sprung free beyond the arc off a screen, slid to his left slightly, caught a pass from Steven Harvin that narrowly missed being intercepted and drilled a 3-pointer to give Elon a 58-55 win against Appalachian State April 12 in front of a sellout crowd of 1,561 in the team's last game of the season.

TOP SPIN AND WIN

by Jessica Waugh

The Elon University tennis teams aggressively took the court to fight for the Phoenix this year. The men's team is coached by Michael Leonard, and assisted by Bob Owens. The women's team is coached by Elizabeth Perry.

The teams included a variety of athletes from Virginia, Maine, Louisiana, Sweden, England and Thailand.

In the fall, members of the men's team, Pramote Malasitt and Austin Fenn, won the University of South Carolina Invitational A-2 Doubles Flight. For the women, both Evin Prelec and Molly Cade went undefeated at the East Carolina Tournament, and Kelly Fleck

won the Doubles Flight at the UNC-G Tournament.

This spring, the men's and women's teams traveled throughout North and South Carolina, as well as Virginia and Georgia.

With eight victories so far, the women's team holds a standing of 8-11 and the men's record is 5-15. Up next the teams will travel to the Southern Conference Tournament.

The tennis teams were extremely fortunate to have such great coaches this season.

Molly Cade was a huge influence being one of the two seniors on the team along with Diana Pulupa.

FAST PITCHES

by Justin Hite

The softball team began the year young and inexperienced, with only four seniors on a team of 16 girls. Over the course of the year, the team saw many ups and downs, including a start of 7-4, but also a seven game losing streak. With big wins over Chattanooga, UNC-G, Georgia Southern and a sweep of NC State, the Phoenix were able to scrape their way to a 29-30 overall record and a 9-12 record in the conference during what could be thought of as a re-building year.

A player hits the ball and gets ready to run. Pitching the ball underhand in softball puts a different kind of speed on the ball. The team was led by three All-Conference players. Senior outfielder Dani Concepcion and freshman utility player Debbie Zeigler both earned First Team All-Conference honors, and senior outfielder Megan Borgaard earned Second Team honors. Meredith Miley set a new school record for home runs in a season, hitting 11 during the 2005 campaign. Meredith Gay earned SoCon Pitcher of the Week honors as well.

The team hopes that with the young core of players already assembled they will be able to compete in the challenge for the conference title in the coming years.

BATTER UP

by Justin Hite

The Elon Phoenix baseball brought an array of offensive pressure and defensive excellence to the diamond of Latham Park. They were able to win big games over UNC-Chapel Hill and conference foes, Wofford and Davidson.

The season began with high expectations and a hopeful Southern Conference championship. However, soon after the start of the season, Grant Rembert, Pat Smith and Justin Weeks were hit hard with injuries. Key returnees Matt Stocco, Drew Davis and Evan Erickson knew they would need to step up and they did just that.

Senior second baseman Gary Morris was also named to

the All-Conference team. Since the start of the season, Morris has climbed the all-time lists in both hits and doubles. Davis was named to the watch list for the Johnny Bench award, which is given to the best defensive catcher, along with possible first round draft picks in the MLB draft. Prior to being injured, Grant Rembert received the NCBWA National Hitter of the Week in early February.

By May, the team's record was 28-19 and they were 15-9 in the Southern Conference.

Elon's baseball teammate slides to third base. The Phoenix played Furman and beat them in all three games.

Paul Bennett, a junior outfielder, focuses on hitting the ball. Bennett was a key player for the team this year.

You raise me up, so I can stand on mountains; You raise me up, to walk on stormy seas; I am strong, when I am on your shoulders; You raise me up...to all that I can be. -- Kim O'Neil, Senior Class President

Remember

Long Live Elon! President Leo M. Lambert bid farewell to the 115th graduating class on Saturday.

May 21st. The seniors returned to the oaks to receive their oak tree sapling, a great symbol of Elon. Students sat and reflected on their college years with their friends, parents and professors surrounding them. The Class of 2005 was the first class to cheer on the Phoenix instead of the Fighting Christians. They watched each other grow as the school grew with them. Graduation is a bittersweet time—finally getting to see what life has in store, but leaving the college years behind. President Lambert encouraged students to take the memory of Elon with them and to never forget the invaluable lessons they have learned. The Class of 2005 will spread out around the nation and the world, but they will always have a home in central North Carolina.

Graduates enter the world as symbols of light and knowledge

by Jennifer Heilman

Preparation for the 115th Commencement exercises Under the Oaks began May 16th as workers were busy constructing the site. Workers constructed the stage and placed more than 10,000 chairs for the ceremony. Final touches were completed by May 18th and platform party practice took place later in the week.

With threatening thunderstorms Thursday evening, the Farewell Picnic for seniors and their families was moved from Lake Mary Nell to Harden Dining Hall. Guests began arriving well before 6 p.m. to feast on a menu of hamburgers, hotdogs and salads. Senior class photo by Jennifer Heilman

Seniors register at the entrance of Harden Dining Hall and receive their I.D. bracelets. The Farewell Picnic allowed seniors to socialize with one another and their families.

Although more than 10,000 chairs were placed for Commencement exercises on Saturday, many families and friends were left standing. Approximately 975 graduates received degrees.

president, Kim O'Neil, presented President Leo M. Lambert with a check for \$5,623 to go to the Senior Class Scholarship.

Baccalaureate services were held Friday afternoon in Koury Center. Rabbi David Sapperstein, director of the Religious Action Center of Reform Judaism in Washington, D.C. gave the sermon.

Elon Fellows graduates were also recognized during "Leaders for the 21st Century" held Friday evening. Fellows were honored in McCrary Theatre.

Communications and Political Science graduate Dan Hanson smiles at his friends as he prepares to walk across stage. Family and friends with signs and noise makers could be heard cheering on graduates as they received their diploma.

Waiting to process with the university faculty, Communications professors Kelli Burns and Janna Anderson converse with one another. Senior class president Kimberly O'Neil thanked faculty for their challenges and their active role in the graduates' college careers.

photo by Jennifer Heilman

Long Live Elon! continued from page 166

After a long night cooled by summer thunderstorms, the sun rose over the horizon on Saturday, May 21st as the Class of 2005 prepared to bid farewell to Elon. By 9 a.m., the 975 graduates transformed Jordan Gym into a solid color of maroon as they relunctantly made their way to their seats and awaited a sneak preview of the Commencement speaker.

Students began to double-file out of the gym moments before 9:30 a.m. They followed the sun lit path to Under the Oaks where they would soon move their tassel to the right side of their cap as they received their degrees.

Assistant Chaplain Katharine Colussy-Estes opened the ceremony with a prayer, followed by the singing of the National Anthem and a Message of Appreciation from senior class president Kimberly O'Neil.

Commencement speaker Jeanne Swanner Robertson, an Elon trustee and professional speaker, delivered a humorous Commencement address. Robertson challenged graduates to remember one thing about her speech: "Make it a priority to find humor in your day...and you will reap the benefits."

Graduates then processed across the stage to receive their diploma from President Leo M. Lambert. The 115th Commencement exercises concluded with the Alma Mater led by John Robert Kernodle III and President Lambert's famous words---Long Live Elon!

Jocelyn Maning

"Dream Big"

If there were ever a time to dare.

To make a difference To emberk on something worth doing It is now.

Not for any grand cause, necessarily -But for something that tugs at your ear Something that is worth your aspiration Something that is your dream.

> You owe it to yourself To make your days count. Have fun. Dig deep. Stretch.

Dream big.

Know, though, That things worth doing Seldom come easy,

There will be times when you want to

Turn ground

Pack it up and call it quits Those times tell you

That you are pushing yourself And that you are not afraid to learn by trying.

Persist.

Because with an idea. Determination and the right tools, You can do great things. Let your instincts, your intellect And let your heart guide you.

Trust.

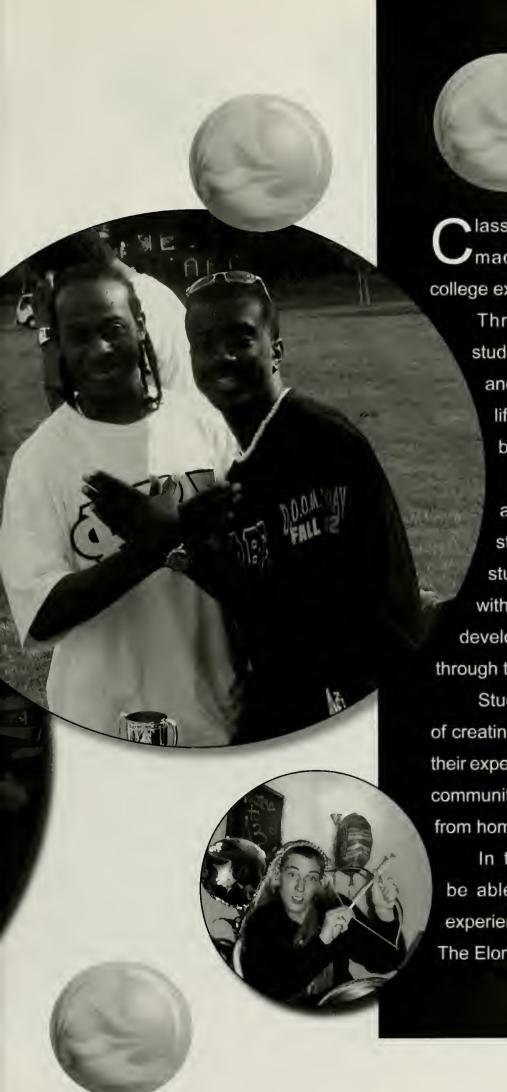

Believe in the incredible power Of the human mind Of doing something that makes a difference Of working hard Of laughing and hoping Of lasting friends Of all the things that will cross your path Next year The start of something new

Brings the hope of something great. Anything is possible There is only one you And you will pass this way but once.

Do it right.

-- Author Unknown

Classes, activities and relationships made a mark on each student's college experience.

Throughout the academic year, students grew as individuals mentally and spiritually and learned valuable life lessons to be taken with them beyond the classroom.

Organizations, athletic events and campus programs allowed students to break away from their studies and find a common thread with one another. Students thrived in developing their character and talents through these outlets.

Students also found the importance of creating memorable relationships during their experiences. Each individual within the community became another's family away from home.

In the future, each individual will be able to look back on their college experience and remember their place in The Elon Bubble.

by Jennifer Heilman

Colophon

Volume 90 of Phi Psi Cli, created by the staff of Phi Psi Cli, includes events that happened from August, 2004 to May, 2005 at Elon University in Elon, North Carolina. 1000 copies of the 192 page 2005 Phi Psi Cli was printed by Herff Jones, Inc. of Charlotte, North Carolina.

The cover was designed by the *Phi Psi Cli* staff with assistance from the Herff Jones art department. It is a four color lithography cover with gloss lamination applied on a 160 point binders board. The photographs on the front cover were taken and merged together in Adobe Photoshop CS by Ms. Jocelyn Maningo. The endsheets are printed in black ink on 70 pound white colortext paper.

An 80 pound Bordeaux paper stock with a gloss finish was used for 192 pages. Body and caption copy was set in Arial type style and decorative fonts were used for headline treatments. Section editors designed the pages using Adobe InDesign version 2.0 in conjunction with the Herff Jones' yearbook templates.

Lifetouch Studios of Burlington, North Carolina photographed all underclass and senior portraits. Photos were taken by the *Phi Psi Cli* staff unless otherwise submitted as a courtesy by an individual or group.

The staff wishes to thank the *Phi Psi Cli* Adviser, Mrs. Felicia Massey, and Herff Jones representative, Kaye Miller, Herff Jones Customer Service representative, Mark Plyler and all others who helped make this publication possible. The *Phi Psi Cli* staff would also like to thank Mr. Rex Waters, the Media Board, faculty and staff, and student organizations, especially *The Pendulum*, S.G.A., S.U.B. and R.S.A. for providing information, contacts and photographs for this publication. A special thanks to all the parents of seniors for their sponsorship support.
